

## Lyrics to Family Man + Now & Then (MJ Lawrence)

### Family Man

(lyrics by M.J. Lawrence)

Pick up the pieces now, do not what they did  
Mind your own matters, distant memories  
Papa is troubled still, mama did all she could  
Said she no hunger, to feed us more

Tell me how we learned to love, in the midst of a daze  
Tell me how we found a nice summer day

See the lines on my face, bygones forgotten  
I have earth on my hands, but grass at my feet  
I'm a family man, took a long time to get here  
Giving only the best of the best I can see

Reaching for future now, it's almost like my dream  
How did I know that I would be standing  
Two beautiful angels with eyes for another world  
Nothing's more precious than to feel your love

Everything I have is yours, oh to help you on your way  
Together we can find a warmer day

See the lines on my face, bygones forgotten  
I have earth on my hands, but grass at my feet  
I'm a family man, took a long time to get here  
Giving only the best of the best I can see...

### Where is Home

(lyrics by M.J. Lawrence)

There was a drunken man who sat alone  
I asked him his name, but he sang a song to me  
With regret in his eyes and a smile of fear  
He turned to me as the chill stood clear from deep inside

I said what will you do  
Now you've lived your life now find you live in the rain  
I don't know, my friends ain't what they used to be

Where is home, the answer's in a letter now  
Where is home, the question's on his face  
Where's my wife, my entire family  
Where is home, where did I go wrong

I ain't Jesus man, I can't walk that line  
So why should I try, to better my life just for the family  
I like philosophy, but if you have a beer  
I can tell you why the earth's shadow stood still the other day

I said what you will you do  
Now you've lived your life now your family's all gone mad  
I'm so sorry, I am what I am

Where is home, the answer's in a letter now  
Where is home, the question's on his face  
Where's my wife, my entire family  
Where is home, where is home

## **Stand Alone**

(lyrics by M.J. Lawrence)

Got to go and catch a train  
It seems it's just that time, you know the way like always  
Memories travelin' through my mind  
Reflecting how it was, you know the way the beginning

There you are, you've got that worried face  
Just like it was the place you'd stand alone, so alone

What's the difference where we are  
Our love is real, just a matter of time girl  
Streets wear souls and I am searching  
I found a love, one who is waiting  
Where's the place, the one I am feeling  
To be free I stand alone

Packed a bag with my whole life  
I want to see a world, you know the way you'd fight for  
Long way to a harmony  
It's wonderful to see, you know the way within me

There you are, you've got that worried face  
Just like it was the place you'd stand alone, so alone

What's the difference where we are  
Our love is real, just a matter of time girl  
Streets wear souls and I am searching  
I found a love, one who is waiting  
Where's the place, the one I am feeling  
To be free I stand alone

La la...

## **Too Tall to Tell**

(lyrics by M.J. Lawrence)

In summertime my love, I had some words I wanted to say  
Just a feeling I had to share, but the moment was not right  
Oh here I am, I'm on the road again  
I have not much you know, oh shine the light on me

Went away today, but I slept alone  
I've discovered now, there's still so much more to learn  
With all pride aside, we see the truth  
Love is too tall to tell

Feelings can be changed, I want to know the things I should do  
We must grow, not stay the way we are  
Our existence could be more  
As time goes by, life has new meaning  
When will the price be paid, oh shine the light on me

Went away today, but I slept alone  
I've discovered now, there's still so much more to learn  
With all pride aside, we see the truth  
Love is too tall to tell...

### **Someone Like You**

(lyrics by M.J. Lawrence)

When I see someone like you  
I just want to hold you do you, I can't wait to ask you  
Do you want me to care for you, your life, forever more  
Should we talk in dark we two

When I kiss and touch your lips  
I just want to love you do you, oh my heart beats for your answer  
Do you, want me to share my world, my joy belongs to you  
Let us touch through the night let's dare

Feel my lovin'  
Try your pleasure  
Find your nature  
Love

When I feel love in someone like you  
I just want to tell you me too, yes my heart beats with desire  
Will you stand by me girl, to us, our dreams, our daughter dear  
Let us kiss in the dark for years

Feel my lovin'  
Try your pleasure  
Find your nature

You can be warm when the world has gotten so cold  
You give me ground that makes my life seem so easy  
Days in and out, your takin' care of the family  
Let yourself go and be what you want to be  
Together for one and all for our desired dreams

### **The Way You Say I Love You**

(lyrics by M.J. Lawrence)

For want, for reasons we don't understand  
What we see, we can't always believe  
And you, you think that what you feel is real  
Oh time, will bring us where we want to be

It's the way you move, it's the way you talk  
We were lovers then, oh we are lovers now  
It's the first time you looked at me  
It's the sparkle in your eyes  
It's the way you say I love you

Desired dreams, don't ever seem to go away  
Two can dream, the answers we will find

It's the way you move, it's the way you talk  
We were lovers then, oh we are lovers now  
It's the first time you looked at me  
It's the sparkle in your eyes  
It's the way you say I love you

## **Miss Runaway**

(lyrics by M.J. Lawrence)

Lookin' so sweet as honey, you hooked my eyes right on you  
I followed you 'round the corner, and that's where I couldn't resist  
Well I gave you that kiss baby, the one that got me in this  
I didn't think that lovin' you could end like this

Well dazzlin' up all my band fans, man you were lookin' so damn cute  
I started to you need you baby, that's when you kicked me aside  
Like a cat and a mouse babe, you play around with my love  
I'm finished with this kind of love, miss runaway

Yeh goodbye baby, you aint no damn fun  
You gave me bait with a hook oooh, and then you pulled it tight

You tell me that love hurts mama, well with you at least that's a fact  
I left you at the airport, and later you gave me hell  
You took my hometown away babe, you dragged my name in the mug  
First you run away every May, and then you spit in my face

## **Now & Then**

(lyrics by M.J. Lawrence)

Well I see you everywhere, almost like you're part of me  
If memories are living things, they can stand in the way  
I never meant to cause you pain, never really tried  
Even when the world was mine

Now and then you get the best of me  
But we got to move on, I saw the scene  
Take my hand, we can be friends for life  
Divided we both lose

If you've tried to forgive someone, then you know it's hard to do  
Who knows if that person, wants to make the same mistakes  
Should me view the goodness, if there's more than bad  
No guarantee that's life it seems

Now and then you get the best of me  
But we got to move on, I saw the scene  
Take my hand, we can be friends for life  
Divided we both lose

Take what you deserve  
Nothing less, and nothing more

Well I see you everywhere, almost like your part of me  
If memories are living things, they can stand in the way  
I never meant to cause you pain, never really tried  
Even when the world was mine

Now and then you get the best of me  
But we got to move on, I saw the scene  
Take my hand, we can be friends for life  
Divided we both lose...

## **I'm Lucky**

(lyrics by John Paiva)

Oh I woke up this morning feelin' spring  
Just like a bird, on the wing  
Old man trouble, can come on over the hill  
But he'd better stay away, from my window ceil

'cause today my head's up in the sky  
And I'm in love and flying high  
Got no more troubles, happy as I can be  
'cause the girl I love is in love with me

Oh I'm lucky, I've got my girl  
Nothing can hurt me, nothin' in the big ole world  
Oh I'm lucky, she's here for me  
I'm headin' for the top, just wait and see

I've got a brand new life, and a brand new way  
Don't know what else I can say  
As long as she's beside me, that's all I'll ever need  
The sky can show its dark clouds, but that won't bother me  
'cause my life is so, life is so complete

Oh I'm lucky, I've got my girl  
Nothin' can hurt me, nothin' in the big ole world  
Oh I'm lucky, she's here for me  
I'm headin' for the top, just wait and see

I've got a brand new life and a brand new way  
Don't know what else I can say  
As long as she's beside me, that's all I'll ever need  
The sky can show its dark clouds, but that won't bother me  
'cause my life is so, life is so complete
